PROFESSIONAL EXPERIENCE

OCEAN SOFTWARES — MERN STACK DEVELOPER

2025 JUNE - PRESENT

- Developed and maintained full-stack applications using React.js, Node.js, Express.js, MongoDB, and TypeScript.
- Worked on Qatar-based ERP & CRM systems, developing modules such as Compliance Register, Permit to Work, and custom business forms.
- Developed a Custom Form Builder allowing users to create configurable forms with dynamic fields, sections, validations, and business requirements.
- Implemented workflow automation based on form conditions, including automated email notifications, push notifications, approvals, and scheduled follow-up emails.
- Developed customized dashboards and reporting systems where users can create charts and reports with group-by, drill-down, filtering, and data visualization, including Excel and PDF export.
- Built a Private Theatre Booking System with customer website and admin panel for slot booking, add-on selection, booking management, and administration.
- Developed a Charity Foundation Management System for managing foundation data and operations, including payment integration and API-based data management.
- Developed and integrated REST APIs, authentication, CRUD operations, search, filtering, pagination, and supported debugging, deployment, and production issue resolution.

CONSORTIA 22 — FULL STACK DEVELOPER

2024 FEBRUARY- 2025 MAY

- Developed and maintained a static business website with responsive and user-friendly interfaces.
- Supported the development of a Car Sales & Repair Showroom Management System, handling customer data, lead management, service records, and CRM-related operations.
- Worked on customer and lead management workflows, supporting data organization, tracking, and business operations.
- Developed an Admin Panel for Psychology Classes to manage student data, course details, registrations, and centralized records.
- Integrated REST APIs, CRUD operations, form validations, and responsive UI components while supporting debugging, feature enhancements, and production activities.

EDUCATION

Bachelor of Engineering (B.E.) – Mechanical Engineering

- JP COLLEGE OF ENGINEERING
- 2019– 2023
- CGPA: 8.1/10
