Work Experience

Ocean Softwares Private Limited, Chennai

June 2025 – Present

MERN Stack Developer

- Engineered a CRM and e-commerce platform with an admin panel and customer-facing site using the MERN stack.
- Developed and deployed two complete web solutions for clients, ensuring scalability and mobile responsiveness.
- Implemented role-based authentication, secured APIs, and data handling modules for system integrity.
- Optimized MongoDB schemas and queries to deliver fast data retrieval and performance.
- Built RESTful APIs for smooth front-end and back-end integration.
- Enhanced user interface with reusable React components and adaptive layouts.

Consortia22, Chennai

Feb 2024 – May 2025

Full Stack Developer

- Redesigned and modernized UI/UX for a vehicle sales dashboard, introducing Dark/Light Mode and improving user engagement.
- Revamped a car sales website (steerauto.difuza.com) with responsive design and theme toggle for accessibility features.
- Maintained and improved 4+ live production websites, ensuring cross-browser compatibility and high performance.
- Created responsive static websites using React, HTML, CSS, and modern frameworks for a smooth user experience.

Projects

E-commerce Platform (Masala Business)

- Delivered a fully responsive e-commerce website using React.js, Node.js, and MySQL, tailored for a traditional masala business.
- Constructed scalable UI elements and integrated REST APIs for smooth navigation and interaction.
- Implemented advanced features including category-based listings, cart management, and checkout flow.
- Structured and managed MySQL database for product catalog, orders, and customer data.
- Improved performance metrics by streamlining API calls and enhancing state management.
